

**IN THE CLAIM**

Please cancel Claim 2 without prejudice or disclaimer of the subject matter thereof. The claim 1 is remained as the original form without any amendment.

**LIST OF CLAIMS:**

Claim 1. (Original) A retaining seat device of a bicycle auxiliary handle for fixing a bicycle auxiliary handle to a general handle; the retaining seat device comprising:

two cushions;

a transversal tube having a retaining block at a front end thereof and a middle section; the retaining block serving for fixing the bicycle auxiliary handle to a front center of the general handle;

two retaining seats; each retaining seat having a groove corresponding to a shape of a periphery of the middle section of the transversal tube; in assembly, the two grooves of the two retaining seats being oppositely arranged so as to be combined as a hole for receiving the middle section of the transversal tube; a lower outer side of each retaining seat having a positioning hole for receiving a respective distal tube; a top side of each retaining seat having a plurality of adjusting holes for fixing a corresponding one of the two cushions and adjusting a distance between the two cushions.

Claim 2 (Cancelled)
